Technical Skills

- **Languages:** HTML | CSS | Java | JavaScript | TypeScript | SQL
- **Frameworks & Tools:** Node.js | Next.js | React | Tailwind CSS | GitHub | VS Code | Postman
- **Databases:** MongoDB | MySQL
- **DevOps & Cloud:** AWS EC2 | GitHub Actions | CI/CD Pipelines | Nginx | PM2 | SSH | Let's Encrypt (Certbot) | Environment Configuration
- **Other:** Git | API Integration | SEO Optimization | Performance Tuning | Server Monitoring

Professional Experience

Full Stack Developer

Tedekstra Limited

Noida , India 11/2025 – Present

- Developed a **responsive, SEO-optimized** web application using **Next.js** and **TypeScript**, improving page performance by 30%.
- Developed **server-side rendered (SSR)** and **static site generation (SSG)** pages to optimize performance across devices.
- Developed **RESTful APIs** to manage customer data, inventory, and workflows, reducing API response time by 20%.
- Delivered a unified stack with Next.js, **NestJS + Prisma backend**, ensuring consistent code quality and smooth API interaction.
- Integrated user **authentication and authorization** for different roles, enhancing security.
- Implemented **API integration** enabling secure, type-safe and efficient **frontend-backend communication** in a full-stack application.

Software Developer (SDE-1)

Genius Labs

Noida , India 07/2024 - 06/2025

- Built and maintained web applications using **Next.js** and **MongoDB**, improving page load times by 30%.
- Deployed updates on **AWS EC2** using **CI/CD pipelines via GitHub Actions** , contributing to timely releases of any new updates.
- Integrated **Firebase authentication** into Next.js, enabling secure, seamless login experiences akin to streaming services.
- Automated workflows via **GitHub Actions**, and managed **AWS EC2** deployments, improving deployment efficiency by 30%.
- Integrated **Google Analytics** to monitor user behavior, measure performance, and guide optimization strategies.
- Achieved a **98/100 Lighthouse score** by using Next.js App Router and Optimize **SEO** by using structured data (**JSON-LD**) schemas.

Web Developer

Freelance

Noida, India 03/2023 - 05/2023

- Developed a responsive website using **HTML5, CSS3, JavaScript**, with optimized performance and ensured cross-browser compatibility.
- Experienced in working closely with teams and clients to deliver high-quality projects that align with design requirements and meet deadlines.
- Dedicated to consistently meeting client requirements, leveraging expertise in dynamic environments to drive innovation and exceed expectations.

Projects

Global News Live - Real-Time News Aggregation Platform (globalnews.live):

- Built a production-ready news aggregation platform using Next.js, TypeScript, and Tailwind CSS, integrating NewsAPI, deployed on **AWS EC2 with GitHub Actions CI/CD** pipeline achieving **99.9% uptime**, enabling zero-downtime deployments on every push or merge to the main branch.
- Configured **Nginx reverse proxy** for routing traffic and **PM2** for process management, ensuring automatic app recovery after crashes or reboots. Managed environment variables securely using .env.local and **GitHub Secrets** for deployment.
- Implemented **server-side API routes** with secure server-side rendering to fetch and aggregate news data, **reducing API response time by 35%** and improving security by eliminating client-side API key exposure; integrated advanced search functionality with pagination and category-based filtering enabling users to discover news efficiently across 7+ major categories.

SEO Optimize Educational Blog Platform:

- Developed an SEO-optimized educational blog platform using Next.js, React, TypeScript, and Tailwind CSS, significantly boosting online presence and organic traffic.
- **Optimized** performance and accessibility by utilizing **Server Components, Static Site Generation (SSG)**, and **Integrated** comprehensive SEO strategies with structured data (**JSON-LD schemas**), dynamic metadata generation, automated sitemap, and robots.txt creation, semantic HTML, and accessibility features ensuring **WCAG compliance**, leading to improved Core Web Vitals and user experience.

Personalized framework front end developer:

- Developed a secure, personalized exam preparation framework for grades 9–12, achieving a 92% user satisfaction rate and a 35% improvement in test readiness among students.
- Implemented an adaptive learning platform that monitored student progress with 97% accuracy, dynamically adjusting content complexity to boost engagement by 50% and reduce cognitive overload by 30%.
